
NAME:

1. Of the Six Spheres of Earth that we've discussed:

a) which one you know most about (i.e. learned in school, read books or watched films/videos about)?

b) which one is the most mysterious☺ ?

2. How would you answer a question "Where is Earth?" Try to give the **most precise "address" of Planet Earth that you can think of...**

3. Name objects in the night sky that you know and can locate – the more the better!
