

# Figuratively NOT Literally

All your homework must be typed, created on a Google Doc, and handed in here. DO NOT write it on paper and take a photo of it.

1. Just as we practiced in class on Sunday, please write 3 sentences describing what it:
  - a. Smells like outside
  
2. Then write 3 sentences describing what it:
  - b. Feels like outside

Your sentences must include figurative language. Do not speak plainly or “literally” as we discussed in class. I want your words to paint a picture. Write figuratively.

**When you are done with this exercise, you can continue with the following,**

1. Look up a picture of the most beautiful bird. Using descriptive language, and in 4 sentences, explain what the bird looks like, how it flies, rest, loves, cries, whatever you choose its story to be. You MUST save the link where you found the photo of the bird so you can show me and the class.
  
2. Next, look up the most terrifying animal. Using descriptive language, and in 4 sentences, explain what this animal looks like, how it eats, how it cares for its young, how it can still be loved, how it is feared. You MUST save the link where you found the photo of the animal so you can show me and the class.
