PLEASE SUBMIT YOUR WORK THROUGH GOOGLE CLASSROOM

Find the coordinates (*latitude* and *longitude*). Specify whole degrees, *interpolate* (fill in additional grid lines in between those shown) and approximate where necessary.

Example: southernmost tip of CHUKOTKA Peninsula is at about 64ºN, 174ºW.

    (A) Alaska's Capital – JUNEAU   **(C) ANCHORAGE**

    (B) Northernmost US city – BARROW   **(D) Mt. DENALI (McKinley)**
