SCIENCE 2021/2022 HOMEWORK #12

PLEASE SUBMIT YOUR WORK THROUGH GOOGLE CLASSROOM

1.	We don't normally see sound, we hear it, don't we?
	Invented by German physicist Heinrich Rubens in 1905, "Ruben's Tube" is an
	impressive physical demonstration that helps visualize sound waves.
	Watch it at https://www.youtube.com/watch?v=1ZcOusmB4Ls
	(the direct link is also provided in the Classroom).

2. This wer the question below	2.	Answer	the	question	below
--------------------------------	----	--------	-----	----------	-------

- a. What is Ruben's Tube used for?
- b. What do you need to make one (don't try this at home)?
- c. What parameter of a sound wave is responsible for its pitch?
- d. How is that shown in the demonstration?

- e. What parameter of a sound wave is responsible for its volume/loudness?
- f. How is that shown in the demonstration?
